

# fluorinenews

**Saltigo's Fluorine Team** builds upon more than **40 years of expertise in organofluorine chemistry** with roots back to former central research department at Bayer. We support the activities of our life science customers in drug discovery & preclinical programs by providing most classes of fluorinated compounds from lab scale to kg-quantities.

The current issue of Saltigo's **fluorine news** features a selection of novel **fluorinated benzyl alcohols**, which could serve as valuable building blocks in life science R&D. For pricing and availability, please contact our distribution partner ChemCollect GmbH, Westen 44, 42855 Remscheid: [contact@chemcollect.de](mailto:contact@chemcollect.de)

**Saltigo's Fluorine Team** also offers **custom-synthesis** of new and non-commercial fluorinated compounds. For further information, please contact: [fluorineteam@saltigo.com](mailto:fluorineteam@saltigo.com)
